Bilingual Brain Benefits

Six key cognitive functions that improve as a result of being bilingual:

ABS looks to harness the power of a dual-language brain to best prepare their students for the future: bilingual adults on average have higher salaries and more career opportunities than their monolingual peers

ABS is the only dual-language Catholic school in Maryland

66% of children in the world are raised to speak two languages but only 6.3% of the children in the US are bilingual
